HOW TO READ THIS DASHBOARD

The County Snapshot is a comprehensive collection of indicators on the well-being of Hoosier youth. Leaders, policymakers, and community members are encouraged to use the data, engage in advocacy, and inform policies, practices, and decision-making.

Change over time: Indicators can be compared over a four-year time span.

State Comparison: Indicators can be compared to Indiana, for the most recent year.

Ranking: All rankings are out of 92 as data values may repeat. One equals greater number of youth affected.

Discussion Questions: What is significant? What patterns exist? What questions does the data raise? What additional data should be explored? How might the data be used to inform work and improve youth outcomes?
